

Template Week 7 – Host your website on GitHub

Student number: 566780

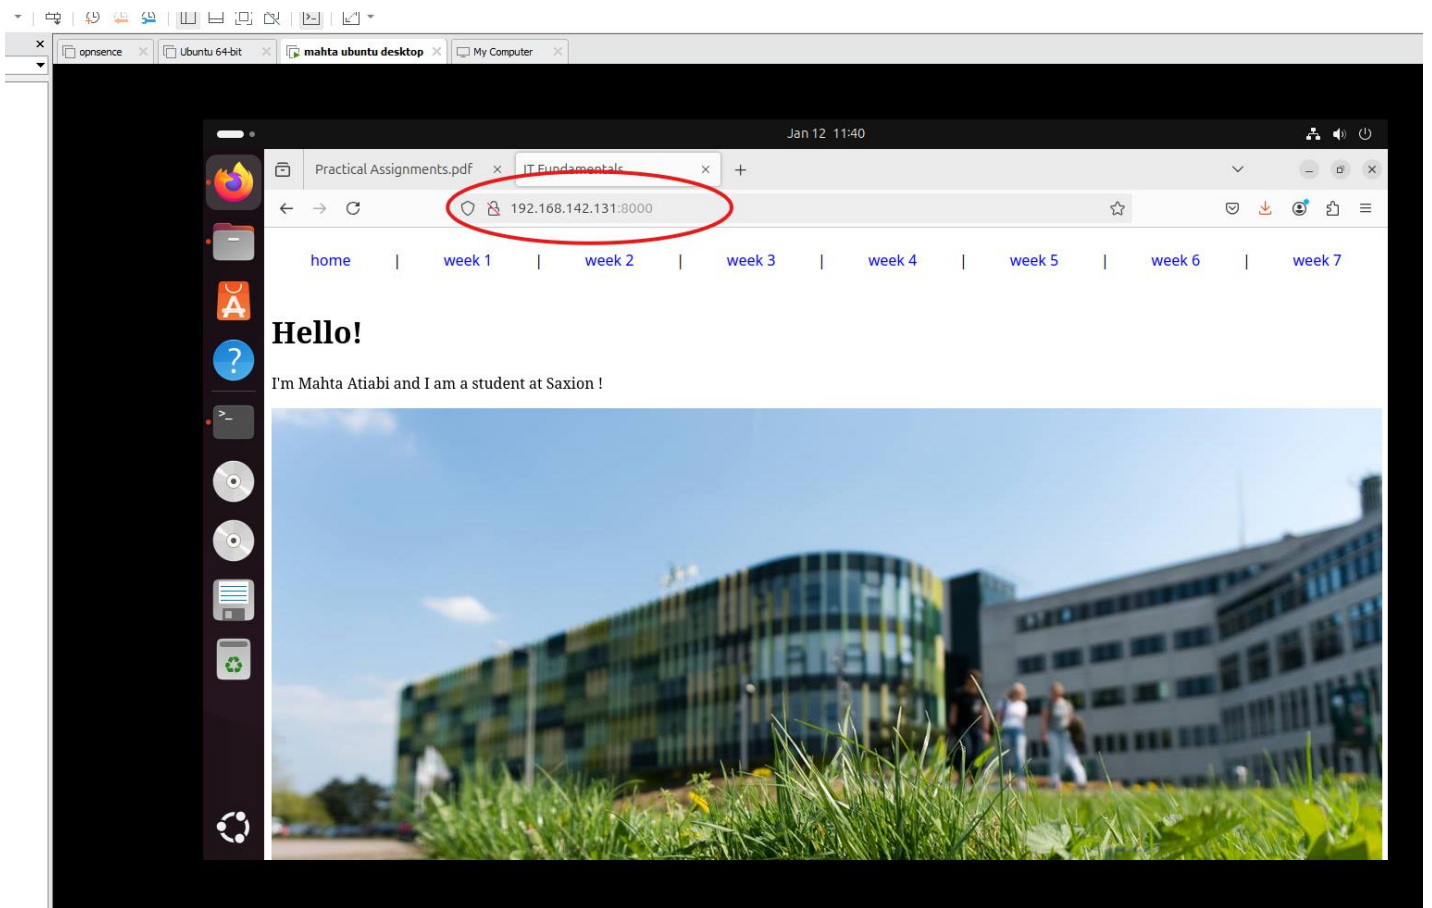

Domain name (URL) of your website on GitHub:

https://mahta-atiabi.github.io/mahta_info.github.io/

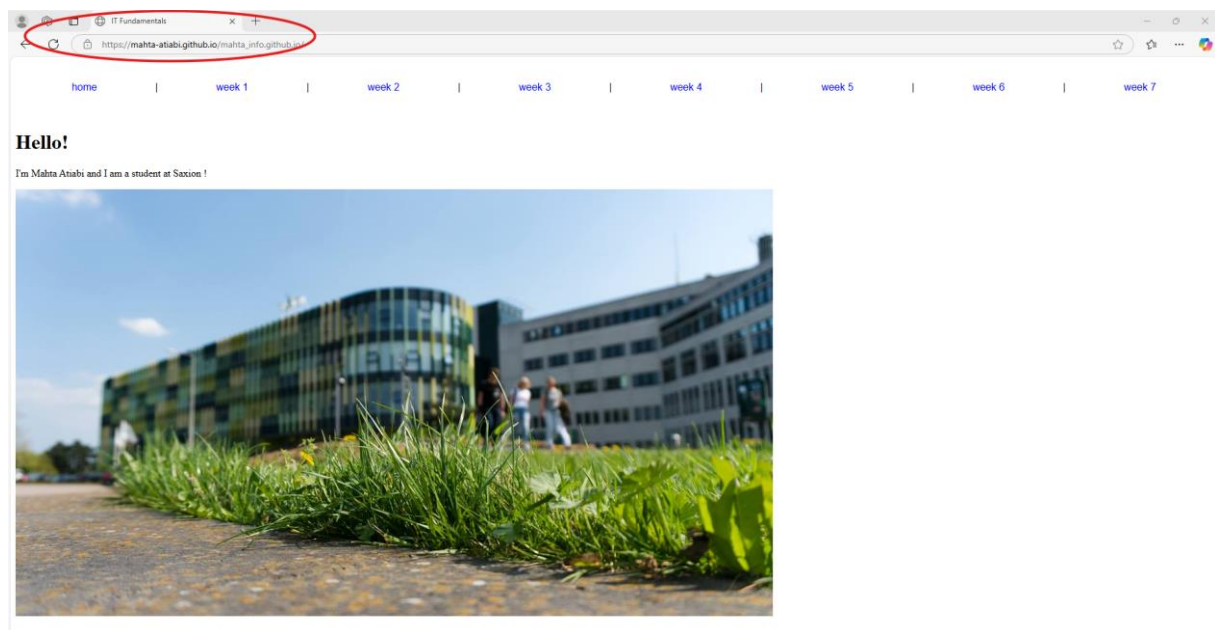

Relevant screenshots + motivation:

This is completed code for site with html and brought up in my ubuntu vmware.

I shared it with 8000 port and was able to bring it up with my ubuntu IP address.

It is also brought up in github
